

Hakizimana Fred

SOFTWARE DEVELOPER

hakifred20@gmail.com | +250787859021

Experience

MarketingPipeline

Ontario, Canada

Software Developer

Jan 2021 - June 2022

Working remotely to help shape a startup into a business.

- Working with Shopify Api, CM's and writing marketing related scripts.
- Writing Back-end Api's and headless scrapers.
- Advising on tools and best practices in order to get tasks done.

Muda Exchange

Kampala, Uganda

Front-end Engineer

August 2021 - April 2022

Worked as a Front-end engineer for a cryptocurrency exchange company

- Converted an existing Front-end system which was written in Angularjs to Reactjs
- Wrote unit tests and structured the application state paradigm

Unsullied Digital Hub

Lagos, Nigeria

Project Lead

Sep 2020 - present

Working on a contract as a project Lead Developer

- I helped build a system that scrapes news and videos from external sources which allow users to publish them as their own content on social media pages.
- I foresee the system's growth and instruct other developers on how to approach work .

iRIO SYSTEMS

kampala, Uganda
